SUMMARY REPORT
FT 950-E

June 1964

FOR RELEASE
August 13, 1964

DOCUMENTS DEPARTMENT
UNIVERSITY OF FLORIDA LIBRARIES
GAINESVILLE, FLORIDA

EXPORT TRADE BY COUNTRY[1]

The Bureau of the Census, Department of Commerce, announced today that the decrease in United States exports of domestic and foreign merchandise, including Special Category commodities, and unadjusted for seasonal variation, from $2,256.6 million in May to $2,099.1 million in June[2], resulted from decreases in exports to some areas which were partly offset by increases in exports to others. The dollar values of area totals changed from May to June as follows: Western Europe, from $743.4 to $708.2 million; Canada, from $437.6 to $430.2 million; Latin American Republics, from $323.7 to $332.4 million; and "all other countries," from $751.8 to $628.3 million.

With Special Category commodities excluded, exports of domestic and foreign merchandise fell from $2,097.1 million in May to $1,933.7 million in June. Reflected in this change were decreases in exports to O.E.C.D. countries in Europe, from $630.3 to $572.9 million; E.E.C. (European Economic Community) countries, from $380.2 to $328.0 million; Soviet-bloc countries in Europe, from $44.2 to $15.6 million; Japan, from $145.4 to $128.3 million; Canada, from $425.5 to $417.3 million; and "all other countries" (except Latin American Republics), from $516.3 to $440.6 million, and increases in exports to Latin American Republics, from $314.4 to $325.1 million.

During the period decreases were reported in exports to all continents except North America. Exports to Asia decreased from $450.6 million in May to $372.3 million in June, primarily as the result of decreases in exports to India, from $97.8 to $55.1 million; Japan, $145.4 to $128.3 million; Republic of Korea, from $24.0 to $16.1 million; and Taiwan (Formosa), from $15.8 to $8.9 million. However, exports to Pakistan showed a gain, from $30.6 to $38.4 million. Exports to Europe fell from $695.5 to $622.3 million, owing chiefly to decreases in exports to West Germany, from $111.7 to $96.3 million; The Netherlands, from $84.5 to $69.1 million; Poland and Danzig, from $23.0 to $10.0 million; Union of Soviet Socialist Republics, from $13.8 to $1.8 million; France, from $71.3 to $61.5 million; Italy, from $61.0 to $54.5 million; and Sweden, from $23.3 to $18.1 million. Offsetting the general decline in exports to Europe were increases in exports to Yugoslavia, from $12.5 to $27.3 million; Spain, from $21.8 to $28.3 million; and Ireland, from $4.6 to $9.9 million. Exports to Africa decreased from $115.2 to $103.9 million, largely due to decreases in exports to the United Arab Republic (Egypt), from $29.6 to $24.2 million, and Algeria, from $4.6 to $1.0 million. The decrease in exports to South America was small, from $186.6 to $179.5 million. Exports to Australia and Oceania declined only slightly, from $59.0 to $58.8 million.

The advance in exports to North America from $590.1 million in May to $596.7 million in June, reflected a rise in exports to Mexico, from $81.8 to $103.3 million, which was partly offset by a loss in exports to Canada, from $425.5 to $417.3 million.

[1] Beginning with the June 1964 issue of this report, the presentation of data in the tables for the individual countries, areas, and continents has been expanded to provide information for the previous month a year ago as well as cumulative "year to date" figures for calendar year 1963 and 1964 (See special footnote on page 5).

[2] See the June 1964 issue of Report No. FT 900-E for seasonally adjusted figures on total exports, exluding Military Assistance Program--Grant-Aid shipments. Seasonally adjusted data are not available for total exports including Military Assistance Program--Grant-Aid shipments or by country of destination.

EXPLANATION OF STATISTICS

COVERAGE: Export statistics include government as well as nongovernment shipments to foreign countries. The export statistics, therefore, include Department of Defense Military Assistance Program-Grant-Aid shipments (for which separate figures are shown in the footnotes of this report), Mutual Security Program economic assistance shipments, and shipments of agricultural commodities under P.L. 480 (The Trade Development and Assistance Act of 1954, as amended) and related laws. (The separate information which is available on exports under P.L. 480 and related laws may be obtained from the Economic Research Service and the Foreign Agricultural Service of the Department of Agriculture.) Shipments to United States armed forces and diplomatic missions abroad for their own use are excluded from export statistics. United States trade with Puerto Rico and United States possessions is not included in this report, but the export trade of Puerto Rico with foreign countries is included as part of the United States export trade. Merchandise shipped in transit through the United States between foreign countries, not entered as imports, is not included in export statistics.

COUNTRY DEFINITION: Although the country of destination is defined as the country of ultimate destination or the country where the goods are to be consumed, or further processed or manufactured, the statistics do not always reflect this definition, as the shipper may not know the ultimate destination of the shipment. In such cases, the shipments are credited to the last country, as known to the exporter at the time of shipment from the United States, to which the goods are to be shipped in their present form. It follows, therefore, that the statistics will tend to be overcounted for shipments to transshipment or merchanting countries and undercounted for other countries. As explained in the footnotes to the table, exports of Special Category commodities are not included in any of the published country totals, for reasons of security.

VALUATION: The valuation definition used in the export statistics is the value at the seaport, border point, or airport of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Transportation and other costs beyond the United States port of exportation are excluded. None of the values have been adjusted for changes in price level.

RELIABILITY: The statistics presented in this report are based partly on sample data and therefore are subject to sampling variation that may cause them to differ somewhat from the results which would have been obtained from processing all export documents. For the figures shown in this report, the sampling variability can be ignored since the probable variability due to sampling is either less than $50,000 (the largest variation from rounding of figures) or less than a trivial percentage of the individual totals shown.

In addition to the effects of sampling variation and the difficulties described above under COUNTRY DEFINITION, the data in this report are subject to errors from such sources as the carry-over of data from month to month, errors in reporting or processing, the estimation of shipments valued under $100, and the omission of parcel post shipments valued under $50. Although the effect of such errors on the rounded totals in this report is probably small, the possibility of inaccuracy should be taken into account, particularly in using figures of relatively small magnitude.

Further information regarding coverage, valuation, compilation procedures and precision of export data is contained in the foreword of Reports No. FT 410 and FT 420. For complete statement, see foreword in Foreign Commerce and Navigation of the United States.

USCOMM-DC

Prepared in the Bureau of the Census, Foreign Trade Division

For sale by the Bureau of the Census, Washington, D.C. 20233. Price 10¢ per copy.
Annual subscription (FT 900, 930, 950, 970, 975, 985, and 986 combined) $5.00.

UNIV. OF FLORIDA DOCUMENTS DEPT.

UNITED STATES EXPORTS OF DOMESTIC AND FOREIGN MERCHANDISE, BY COUNTRY OF DESTINATION: JUNE 1964 AND SELECTED PERIODS

(In millions of dollars. N.e.c. indicates not elsewhere classified. Figures for 1964 are as originally issued and have not been revised to include published corrections. Figures for 1963 include revisions published with the December 1963 reports, or earlier, but do not include revisions published during 1964. Totals represent sum of unrounded figures, hence may vary slightly from sum of rounded amounts)
